

Amit Kumar

Associate Consultant (amitkumar@concret.io)

Summary

Results-oriented Software Engineer with full-stack expertise in C++, JavaScript, React.js, Node.js, and NestJS. Skilled in leading projects, integrating AI tools (LangChain, MCP, AI Agents, OpenAI), and optimizing system performance. Experienced in SDLC and Agile practices, including Kanban.

Skills

| | |
|----------------------------|--|
| Primary Skills | MERN, NestJs |
| Operating Systems | Windows, Linux |
| Core Programming | C++, JavaScript, TypeScript |
| IDE | VS-Code, Cursor AI |
| Other Tools | Docker, Heroku, Vercel, Firebase, Postman |
| Web Programming Frameworks | MERN, Angular, Redux-Toolkit, NestJs, Tailwind, Swagger, Custom CSS. |
| AI Frameworks | LangChain, LangGraph, AI Agents, MCP |
| Databases | MongoDB |
| Code Versioning System | GIT, GitHub |

Experience

RedSoft Solution Pvt. Ltd. | Software Engineer

October 2024 - December 2024

- **Oneinbox:** Developed the entire frontend from scratch for a decentralized chat application that unifies conversations from various social media platforms. This reduced user navigation by 90%.
- **OrangeCrypto:** For a cryptocurrency transaction platform, migrated the backend from Node.js to NestJS and integrated Swagger for API documentation. This reduced API testing and documentation time by up to 60%

Dvertex Info Systems | Full Stack Developer Intern

March 2024 - June 2024

- **SafaiMitra:** Worked on a waste management software solution featuring GPS tracking, worker reports, and payment collection.
- Implemented real-time vehicle tracking with Leaflet.js to replace Google Maps, which displayed location, status, and overspeed alerts.
- This resulted in a 100% reduction in Google Map API costs.

Certifications

- **Web Development Internship Plan**
- **Web Developer Bootcamp 2022**

Education

- Bachelor of Technology in Computer Science and Engineering (B.TECH-CSE) - 2024
- Rajkiya Pratibha Vikas Vidalya (12th) - 2020

- Govt Boy Sec School (10th) - 2018
